

Website Launch

July 2010 sees the launch of our new, improved website, making a dramatic improvement on design and structure.

Business Development Manager, Cerri McDonald, said: "I am delighted with the new website. We recognise that an attractive, user friendly website is essential to maintain a competitive position in our field. Today's growing importance of e-communications, means an innovative website is crucial for any IT Support Provider".

As well as giving the new website a clean and vibrant design, the navigation has been significantly improved and the website is more user friendly for an enhanced user experience. The simple structure is based around Solutions' business divisions and reflects the long-term strategic plans of the firm.

To celebrate the launch of our new website, all enquiries registered through our [new web enquiry form](#) and then bought in August will be put into a draw to win an Apple iPad. Drawn at the end of August, the lucky winner will be announced in our September issue.
